

A SYSTEMIC CLINICAL SUPERVISION FUNDAMENTALS COURSE – FALL 2024

**OCTOBER 18 & 19; NOVEMBER 01, 02, 15, 16, 29 & 30.
9:00AM TO 2:00PM (PST) ONLINE VIA ZOOM**

About the Course: This 36-hour/3-credit university equivalent supervision course is designed to meet professional association requirements for supervisor training. It will enhance the skills for Masters/Doctoral level counsellors/therapists who provide clinical supervision at government and community mental health agencies, private counselling centers, academic training institutions and private practice settings. The course features a systemic, relational and collaborative framework for clinical supervision practice. Supervision theory is integrated with best clinical practice elements alongside opportunity for experiential practice sessions and guided feedback. This is a CACFT approved clinical supervision course.

VANGE WILLMS THIESSEN, BSCN, MAMFT, DMIN ESTERA BOLDUT, BSW, MAMFT, PSYD

About the Presenter-Facilitators:

Vange, as an RMFT and CACFT supervisor-mentor, as well as a BCACC approved clinical supervisor, has provided individual and group supervision for the past 25 years to student interns and graduate therapists, both in Canada and Kenya. She has been instructing supervision courses for the past 23 years and provides supervision mentoring (supervision-of-supervision).

Estera is an experienced MFT clinician and supervisor. She is the Program Director of a Master's degree in MFT and her clinical supervision practice includes student interns and graduate therapists. The focus of her Doctoral Dissertation is on self-compassion cultivation and person-of-the-therapist development.

Endorsements: "This course presented many valuable theories, models & approaches to clinical supervision which greatly enhanced my practice."

"The learning experience was informative, integrative, and cutting edge."

"Facilitators are highly knowledgeable and skilled clinical supervisors who effectively blend research and theory with their experience and wisdom."
